

MICHAEL'S

Professional Upright Vacuums

**With Multi-Level Filtration and Multi-Task Versatility,
These Uprights Can Stand Up To The Challenge**

One year limited warranty on parts and labour.

Equipped with on-board tools and 4-to-1 stretch hose with extension, these uprights make any vacuuming chore a snap. The brush roller is balanced to eliminate vibration at high speed and can be replaced easily in the field without the use of tools. Boasting multi-level filtration capabilities, the RX series of vacuum cleaners are ideal for any health care application including hospitals, nursing homes and retirement homes. All models can be equipped with an optional special S-Class Hepa Type Filter for healthcare environments, which assures 99.97% vacuum efficiency at 0.3 microns for extreme allergy concerns. Cleaning above the floor using the stretch hose with extension and tools on-board make a difficult task easier. Each unit offers a bag full indicator light and brush adjustment dial which includes light for proper height adjustment.
